

Scope and Background

International Symposium on Earth Science and Technology 2010 is organized by The International Network for Cooperation on Earth Science and Technology (CINEST). This symposium highlights the recent achievements in the fields of Mineral Resources, Energy and Environment based on the Earth Science and Engineering. The symposium includes invited lectures by Kyushu University G-COE program "Novel Carbon Resource Sciences". Interdisciplinary studies and discussions on the future directions of the fields are focused, and especially young researchers contributing to earth resources development and global environment are strongly encouraged.

CINEST Chair: Kikuo Matsui

We would like to invite you to a field trip which is held on 9th of December, after the symposium. We are making a plan of the field trip as follows.

Thursday, 9th of December, Field Trip

"J-POWER, Toward a Zero-emission Technology and Akiyoshido Cave, the Orient's best large limestone cavern"

[AM]

8:30- Depart from JR Hakata Station by bus
 10:00-11:30 Wakamatsu Research Institute, J-POWER, promoting Coal Energy Application for Gas Liquid & Electricity (EAGLE project)
 12:00-13:00 Lunch at PA near Kanmon channel

[PM]

14:00-15:30 Akiyoshido Cave, the Orient's best large limestone cavern, opens on the south foot of Akiyoshidai Karst Plateau.
 17:30 Arrived at JR Hakata Station (After one brief stop on way back)

Free admission! Please contact the Secretariat by November 12th if interested to join the trip!
