

Kyushu University Earth Resources and Environmental ITP Workshop 2010

2010 International Training Program (ITP) for Young Researchers

Special Lecture by Professor Kevin H. Gardner and Reports by ITP Participants

Professor Kevin H. Gardner from the University of New Hampshire, a partner institution, will give a special lecture and six participants from Kyushu University who participated in the ITP program will report about their time abroad.

Everyone is welcome to attend, especially young researchers interested in doing research abroad next year or in the future.

Date & Time: Monday, December 6th 9:30-12:00

**Place: Kyushu University, Faculty of Engineering,
West Zone 3, Room 816**

Program

Opening Address	9:30~ 9:40
Special Lecture	9:40~10:10
"Coal Fly Ash: Green Construction Material"	
Professor Kevin H. Gardner, University of New Hampshire, USA	
Reports by ITP Participants	10:10~11:50
●University of New Hampshire, USA Kazuya Yokohata (Urban and Environmental Engineering, Masters Program, first year)	
●Lund University, Sweden Gabo Jillian Aira Sibal (Earth Resources Engineering, Doctoral Program, second year) Assistant Professor Yoshitaka Kajita (Urban and Environmental Engineering)	
●Environmental System Research Institute (ESRI) Masaki Tsukihara (Civil and Structural Engineering, Masters Program, first year)	
●University of Alberta, Canada Daisuke Oka (Earth Resources Engineering, Doctoral Program, first year) Takafumi Yamakawa (Earth Resources Engineering, Masters Program, first year)	
Closing	11:50~12:00
